

Cogne U.K Limited

ENVIRONMENTAL POLICY

Cogne U.K. Limited supplies stainless and tool steel from stock to a wide range of customer. We recognise that our operations have an impact on the environment and we are committed to managing and controlling our environmental impacts in ways that are both socially and economically justified.

The nature of the organisation's business means that our operations **DO NOT** have a significant impact on the environment the main area we have an impact on the environment is:

- **The use of energy**

We are committed to:

- **Protecting the environment**
- **Prevention of pollution**
- **Fulfilling our compliance obligations**
- **We shall continually strive to improve the environmental management system and to enhance environmental performance**

In delivering our commitment we shall comply with applicable environmental legislation and regulations; we shall conserve natural resources through the responsible use of energy.

This policy acts has a framework for setting environmental objective of reducing electricity usage, paper and developing recycling initiatives. We shall ensure that consumption is monitored.

All necessary personnel and financial resources will be allocated to assist the company in meeting its defined environmental objective(s).

As Managing Director, I take full responsibility for ensuring that this policy is communicated and implemented throughout the organisation and any other interested parties via our web site.
